hypermotion

Pioneering Mobility and Logistics

+ Data Analytics & Security

+ Digital & Urban Logistics

Who meets up at HYM?

Suppliers and users of new solutions from the **mobility and logistics** sectors: industry, mobility service providers, transport companies, start-ups, capital ventures, science and research, local authorities, public agencies, architecture and planning offices, consulting firms and other services e.g. tour operators.

“Mobility concerns us all and that is why the Hypermotion format is so important! I was offered a great opportunity to network with cooperation partners in a perfectly organised environment.”

Daniel Kropp, founder and CEO of Mein Schlemmerdepot and winner of the Start-up Founder Prize from the House of Logistics & Mobility, Gateway Gardens Frankfurt Airport

THE 2019 PROGRAMME – ONE TICKET FOR ALL CONFERENCES + EXHIBITION

- **NEW 5th German Mobility Congress** on 26 and 27 November: Subject **Mobility in urban centres – opportunities and challenges**
- **NEW** On 26 and 27 November in parallel with Hypermotion: STUVA Conference on tunnel construction and infrastructure
- **13th EXCHaNGE** on 26 and 27 November: International SUPPLY CHAIN Summit with Award Night
- **3rd Logistics Digital Conference (LDC!)** on 28 November
- **smart mobility conference (smc)** on the subject of sustainable urban mobility and the digital networking of regions. In cooperation with the Pilot Unit of the BMVI for the emergency programme **Clean Air 2017–2020** and the **atene KOM consultancy**.
- **Connected Technologies Conference** with a focus on innovative technologies for intelligent transport systems and services (ITS)

What is HYM and what makes it different?

Hypermotion brings together **providers and users** who set **new standards** for tomorrow's mobility. Networking is the ultimate goal. The event aims to identify the interfaces between mobility and logistics.

“At Hypermotion, various stakeholders dare to look into the future, and I really liked that. New technologies were discussed – not only the opportunities, but also the challenges, e.g. in the area of autonomous driving.”

Manfred Fuhg, Head of Sales Region Germany, Siemens Mobility GmbH

Hypermotion Lab with start-up pitches, Tech-Talks, think tanks, world cafés, speed networking ...

Themes:
Artificial intelligence, drones, air taxis, new space and much more

Location

NEW

In Hall 1.2 directly at the City Entrance to Messe Frankfurt

- Conferences and exhibitions linked spatially and in terms of content

NEW Micro Mobility Parcours:

- Monowheels, segways, pedelecs, e-bikes, cargo bikes, e-scooters.

THE FUTURE STARTS WITH QUESTIONS!

Select your participation package at hypermotion.com/join-hym19 and showcase your offer in a platform for first movers as an exhibitor, sponsor, speaker, university or start-up.

"The aim of Hypermotion is to promote the networking of logistics and mobility. The key question reads: How can we best design logistics and mobility chains to meet both individual and intermodal criteria worldwide?"

Danilo Kirschner, Director Hypermotion

"We notice again and again that we have to think in a networked way and that the energy revolution can only succeed if the mobility revolution takes place at the same time."

Lena Jungkamp, Business Development, inno2grid GmbH

"The intransparent, fragmented logistics market needs to become more open. Particularly in the supply chain. Every new platform increases the pressure on logisticians."

Peter Trapp, Managing Director at startport, partner of EXCHaNGE 2018

"No other event brings so many experts, users, start-ups and professional associations up to date with the latest technology and industry knowledge in this type of diverse format."

Stefan Weber, PMP® Sr. Program Manager & Site Lead Frankfurt, HERE Technologies
